

Video Title: Living Rock: An Introduction to Earth's Geology

*Available as a DVD from Amazon, etc. (ISBN: 4771507352), or online at
http://il.water.usgs.gov/education/video/USGS_films.html*

Key Concepts to look for, in alphabetical order:

Aeromagnetic survey

Basin and Range

Continental Crust

Crustal Spread

Earthquakes

Erosion

Exotic Terrane

Geologic Time

Glaciers

Granite Batholiths

KTB Drill Site, Bavaria

MOHO (Mohorovicic Discontinuity)

Pillow Lava

Plate Tectonics

Rifts

Sima Volcanic Field

Subduction Zones

Tufa Towers

Underplating

Volcanic Activity

Xenoliths

*DVD includes 400 U.S. Geological Survey "Fact Sheets", many of which can be found on the USGS web site (
<http://www.usgs.gov/>).*
